

Chevron

Lubricants

Husky and Mohawk are proud to carry Chevron Delo 400 Multigrade motor oil – the new world standard for greater performance, improved protection and reduced operating costs for commercial vehicles.

On every count, Chevron Delo 400 Multigrade delivers exceptional value:

- **Reduced operating costs** Lower wear on cylinders, pistons, rings and injectors, extended filter life, and reduced corrosion all mean less maintenance and engines that last longer.
- **Lower oil costs** Greater oil life, thanks to outstanding oxidation stability, means longer drain intervals; combined with lower oil consumption, this keeps oil costs exceptionally low.
- **Improved profitability** Unsurpassed protection against valve train wear ensures superior fuel economy.
- **Reduced inventory costs** Delo 400 is ideal for all gasoline and diesel engines. Having one oil for all services, models and vintages simplifies inventory, saves space and handling time, and helps avoid product misapplication.
- **“Warranty Plus” protection** With the Delo family of products you get bumper-to-bumper warranty protection from the engine to the drive train, plus the added assurance of full technical support from Husky and Chevron.
